

Team Evaluation Form (Final Assessment)

09/2025

AIT102- Python and TensorFlow Programming

Group Number:	13
Project Title:	Skin cancer Analysis
Student Name:	Bernar Zholdybek

Please provide the points among your teammates according to their level of participation and commitment in your team's project. **Do not assign any points to yourself – just to your team members.**

If you feel all members have contributed equally, then assign each team member 5 points. If you feel, there were differences about the contribution you may provide different points according to their contribution. **All points and comments that were given by you on your team members will be CONFIDENTIAL.**

Your evaluation should focus on the following criteria:

- **Level of participation:** Actively contributes to the design and implementation.
- **Dependability:** Follows through on tasks and responsibilities, is at meetings.
- **Communication:** Listens, expresses ideas/concepts.
- **Quality:** Demonstrates accuracy and thoroughness.
